Marjore Last awaiak

Dear Mr. Jarvela:

I am writing to you because of a point of contention in relation to how one of our members (Concerned Citizens To Save Fayette County) was treated on October 23, 1993 by the on-site (EPA/ Weston) team in Minden, WV. It was reported (and confirmed by Paul) by George Burgess, (former Shaffer employee and Concerned Citizen) that he witnessed the on-site team treating Paul McGhee (our technical advisor) in a rude and callous manner. We feel that people should be treated in a courteous fashion and that no community member should have to suffer a degrading attack by employees of the EPA or Weston, Inc. Therefore, we are requesting a verbal apology at the upcoming May 1994 EPA/ Concerened Citizens meeting to be held in Minden, WV.

We await your response.

Sincerel

Fighting to Insure Fayette County a clean, safe, and hidding environment."

on this issue. He said that he 1115 - Called TAT already talked to OSE Jarvela. On 10-23-93, CCSFC members arrived on site. TAT required the to sign in the sign-in sheet. Copy of information on tree core sampling and asked what is the plan for tree core sompling. The did not have any Knowledge of any tree core sampling at all to be done on site and he even did not know if such a question was discussed earlier. He informed the CCSFC number that he has no knowledge of the sampling, however, he can call OSE and the CCSFC member can discuss with him. Both went inside the Command Post and THT called the OSC. for talked to OSC and aparently become & made and left the command post. 5 He expressed his madners TAT dealt with him professionally outside the command post. and as politely as possible.
